KITTEN HEALTHCARE PACKAGE

As a Veterinary Hospital we offer the highest standard of care for your pets, therefore we have designed this package in order to give your kitten the best possible start in life. The cost of the package is £70.00 which is payable on your first visit to the surgery.

- **Full course of vaccinations** consisting of two injections which give protection against potentially fatal diseases.
 - **A Microchip** which gives your kitten unique identification number logged on a national database, which should your kitten go missing would assist in reuniting you with your pet. **Please arrange an appointment with a nurse for this to be done.**
 - **First worming treatment** essential for the good health of your kitten and to rule out any risk to your children.
 - **First flea treatment** to prevent the discomfort these parasites cause. The Advocate pipette treats fleas and worms with a very simple spot on preparation.
 - **Royal Canin sample + a voucher towards your first bag.** This is a premium range cat food which we highly recommend and is available to cover all stages of your pet's life.
- 4 weeks FREE insurance cover available, accidents do happen!!**

Please note the insurance policy is only activated on completion of the cover note with a member of staff who will sign it.

Be sure to ask for details for our Pet Health Club, this is designed to save you money and allow you to budget for your cat's routine veterinary care.

When the time comes for neutering present this voucher and we will give you 10% off the cost of the operation.

NEUTERING VOUCHER FOR ONE KITTEN

Brook House Veterinary Hospital valid until 30.06.10

Not to be used in conjunction with any other offer
