SAVE UP TO £60 !!

PUPPY HEALTHCARE PACKAGE

As a Veterinary Hospital we offer the highest standard of care for your pets, therefore we have designed this package in order to give your puppy the best possible start in life. The cost of the package is £70.00 which is payable on your first visit to the surgery.

- **Full course of vaccinations** consisting of two injections which give protection against potentially fatal diseases.
- **A Microchip** which gives your puppy unique identification number logged on a national database, which should your puppy go missing would assist in reuniting you with your pet. **Please arrange an appointment with a nurse for this to be done.**
- **First worming treatment** essential for the good health of your puppy and to rule out any risk to your children.
- **First flea and tick treatment** to prevent the discomfort these parasites cause.
- **A Royal Canin sample + voucher towards your first bag.** This is a premium range dog food which we highly recommend and is available to cover all stages of your pet's life.
- **Free adolescent assessment when your puppy is 6months old.**

4 weeks FREE insurance cover available, accidents do happen!!

Please note the insurance policy is only activated on completion of the cover note with a member of staff who will sign it.

Be sure to ask for details for our Pet Health Club, this is designed to save you money and allow you to budget for your dog's routine veterinary care.

When the time comes for neutering present this voucher and we will give you 10% off the cost of the operation.

NEUTERING VOUCHER FOR ONE PUPPY

Brook House Veterinary Hospital valid until 30.06.10

Not to be used in conjunction with any other offer
